# Level Requirements

The thing we love most about our fabulous sport is that there is a space for everyone, no matter the skill level or experience. At Fury, we believe in perfection before progression to ensure our athletes develop their skills in a safe way that will build their confidence for years to come.

Cheerleading combines stunting, tumbling, jumps & dance with each level and age division set up by the Australian Cheer Sport Alliance (ACSA) & the International All Star Federation (IASF).

Putting together a successful team is always our priority. We strive to build teams and athletes that are strong and confident. We use tumbling as a starting point to appropriately place our teams/athletes. However, positions on teams may be filled with athletes that hold strengths in other important areas of cheer such as stunting and coachability.

An athlete should gauge their tumbling level based on the skills they have mastered on the floor.

# What does Fury mean to us?

Coming from interstate, the welcome I got from Fury was like I had known the gym or athletes/coach for years. The culture within the program is nurturing, and fosters a good environment for all ages. For me, Fury means inclusivity, and equal opportunity.

- Jess, FF5

We are so happy we found cheerleading as my daughter just loves it. The friendships that have been built & the confidence I can see growing in Ruby physically & mentally is wonderful to watch. The coaches & staff have been incredible, especially when Ruby was out due to an external injury. They looked after her & made her feel inclusive from the side lines in training & at comps. West Coast Fury is a great club to be a part of. Thank you!

- Georgia, Solar Flares

Fury means family, a home away from home, it means forever friendships, commitment and hard work, building confidence and overcoming fears. It means patience, kindness and sportsmanship. Fury means fierce!

- Indi S, Heatwave

Everyone is always so welcoming and kind. No matter who you are, everyone will always be kind to you and you will always find friends that will last lifetimes!

- Chelsea, Black Ice

West Coast Fury has provided my daughter with a positive team environment, where she has found her passion in the sport of cheerleading. She has developed a strong mind and body, is always surrounded by amazing role models and developed beautiful new friendships.

- Skye, Heatwave

Fury has become a second home to us from the beginning, the support of the staff all round has been amazing. To see the coaches help the girls achieve their goals and teams to work together, all while having fun. The girls have made so many friends and a lot they aren't even in teams with. We are so grateful to be apart of the Fury crew.

- Jojo, Tiny Turbulence & Hurricanes

From a parent who's child struggles with friendships at school, dropping her at cheer to see friends running towards her brings me so much joy. Fury have vastly improved the confidence of our daughters in all aspects of their life. They've come to understand the importance of fueling your body & exercising. They've made like-minded friends of all different ages. They've learnt the importance and dedication it takes to be successful, they've learnt to win humbly, lose gracefully, work hard independently & as a team. I'm grateful we found Fury & feel assured that our daughters are surrounded by the best positive influences helping to raise our daughters.

- Cherrish, Wildfire & Tsunami

All the athletes make me feel like I have a second family and I feel we all encourage each other to do the the best that we can do.

- Kristy, Eclipse
